

forming a third insulating film on said second insulating film, said third insulating film being made of a material different from that of the second insulating film and having a thickness larger than that of the second insulating film;

forming a groove in a region of said third insulating film, in which a wiring is to be formed; and

forming a metal wiring in said groove.--

REMARKS

Favorable consideration of this Rule 53(b) Divisional Application is respectfully requested.

This application is a division of Serial No. 08/736,324, now allowed, which is a division of Serial No. 08/330,998, now U.S. 5,592,024. Claim 28 is present in this application, claims 1-27 prosecuted in the prior applications being canceled. An Information disclosure has also been filed to make of record prior art cited in the prior applications.

Accordingly, examination on the merits of claim 28 is believed to be in order, and an early and favorable action is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
